Kyle – attached document for your awareness.
responses.

Dana and Allen – many thanks for your comments and quick

Everyone – Chemours indicated Weds they would send us a few dates/time for April to talk through the comments in a mode I've phrased as 'Chemist-to-Chemist'.

Julie and staff are at Chemours today verifying the sampling locations to evaluate any additional locations needed.

Appreciate everyone's help as we move into this next phase of oversight.

Christel – please find attached initial comments incorporating DEQ and EPA review on the subject plans per my voice message this afternoon. As indicated, due to the variety of comments it seems prudent to host a discussion to include EPA so we can go through the proposals together.

Let me know a few dates/time you would be available, and I will set up the conference call.
